<b>Sr. No</b>	<b>Query/Clarification Sought</b>	<b>Clarification / Amendment</b>
1	Change specifications to General heating based instead of Microwave based.	Microwave heating decrease coupling time and peptide synthesis will be faster. Manual heating can also enhance unnecessary side products sometime. No change in specifications.
2	Change Temperature range to 90 degree or below	Peptide synthesis using unnatural amino acids might need heating upto 150 degree. Also solvents used like DMF, DMSO can be heated upto 150 or more. Thus No change in specifications.
3	Synthesizer can have 2 or more ports instead of 4 ports	This can changed to 2 or more ports, but more ports are always better for synthesizer.
4	System can be Manual, semi-automatic or automatic	We have changed this specification and included semi-automatic or automatic also. However, if it is manual it should be upgradable to semi-automatic or automatic
